PROFESSIONAL SUMMARY

Result-oriented Web Developer with a strong foundation in PHP, MySQL, and modern JavaScript frameworks. Currently working at **Tawba IT LTD**, focusing on building responsive, user-centric web applications and converting web platforms into mobile interfaces. Passionate about clean code and efficient database management.

TECHNICAL SKILLS

- **Languages:** PHP, JavaScript (ES6+), HTML5,HTML5 Canvas, CSS3.
- **Frameworks & Libraries:** Bootstrap, JQuery, AJAX,Fabric.js
- **Mobile Development:** Flutter (WebView), Android Integration.
- **Database:** MySQL (Database Design & Management).
- **AI & Automation:** Prompt Engineering (ChatGPT, Gemini), GitHub Copilot, OpenAI API Integration
- **Tools & Platforms:** Git, GitHub, VS Code, WordPress, CPanel.

PROFESSIONAL EXPERIENCE

PHP Developer | *Tawba IT Ltd 01 December 2024 – Present*

- Developing and maintaining dynamic web applications using PHP and MySQL.
- Collaborating on front-end designs using Bootstrap and jQuery to ensure cross-browser compatibility.
- Optimizing website performance and implementing AJAX for seamless user experiences.
- Working on converting existing web platforms into mobile applications using Flutter WebView.
- API Integration & Security: Implementing third-party APIs (Payment Gateways, SMS Services) and ensuring web application security through data validation and secure authentication.
- Database Optimization & Version Control: Enhancing database performance with optimized MySQL queries and managing project versions efficiently using Git/GitHub for collaborative development.

EDUCATIONAL

B.A Pass Course || *Naogaon Govt. College, Naogaon 01 January 2025 - Ongoing*

H.S.C. || *Jahangirpur Govt. College Mahadebpur, Naogaon.* || *Session: 2021 – 2022 || Cumulative GPA: 3.84 / 5.00*

PROFESSIONAL DEVELOPMENT & SELF-LEARNING

- **Web Development (Self-Taught):** Completed intensive project-based learning via W3Schools, YouTube (Technical Channels), and Stack Overflow. Focus on Full-stack PHP development and Responsive UI design.
- **Artificial Intelligence & Prompt Engineering:** * Actively utilizing AI tools (ChatGPT, Gemini, GitHub Copilot) to optimize coding workflows, debugging, and refactoring.
- **Studying AI integration basics,** such as implementing OpenAI APIs or AI-driven Chatbots into web applications.
- **Mobile App Development:** Self-learning Flutter and WebView architecture to bridge the gap between web and mobile platforms.

KEY PROJECTS

Project 1 : Comprehensive ERP Solution || <https://erp.tawbasoft.com>

Tech Stack: PHP, MySQL, Ajax, JQuery, Bootstrap.

Description: We have developed a complete Enterprise Resource Planning (ERP) system to automate the organization's daily operations, ensuring database optimization and maximum security.

Key Features:

- **Operational Management :** Automation of the entire process from sales, purchasing, inventory and dealer orders to delivery.
- **Accounting & Finance :** Automated balance sheet, income and expenditure, balance sheet and statement generation.
- **Stock Control :** Inventory tracking with damage and market damage management.
- **Custom Utilities:** Halkhata card generation, collection management and automated SMS notification system at every step.
- **HRM :** Complete employee management and automated reporting module.

Project 2 : OosDesign Tools (Canvas-like-Interface) || <https://oosdesign.co.uk>

Tech Stack: PHP, MySQL, JavaScript, Ajax, JQuery, Bootstrap, HTML5 Canvas, Fabric.js, CSS3.

Description: We have created a powerful graphic design tool using the Fabric.js library, which allows users to create professional designs right in the browser.

Key Features:

- **Interactive Editor :** Provides a drag-and-drop interface for text, images, and shapes.
- **Object Manipulation :** Advanced features for resizing, rotating, grouping, and layering (Z-index management) elements.
- **User Experience :** Ensures a simple and intuitive user interface like Canva, so that ordinary users can easily create custom designs.
- **Customization :** Add different settings and styling options for each element.
